Dear Mr. King:

Mr. Hetu has asked me to thank you for your letter of 24 September regarding computer software systems.

All the decision analysis software used by CIA is either proprietary or classified. We suggest you contact Decisions and Designs, Inc. because they have developed many decision analysis packages that you may find useful. The address is Suite 600, 8400 West Park Drive, McLean, Virginia 22101.

Thank you again for writing. I am sorry we could not be of more assistance.

Sincerely,

CE Wilson

Charles E. Wilson
Chief
Plans and Policy Branch

Dear Captain Hetu:

Mr. Lawrence Houston suggested I write you to inquire if there was any possibility we at the Health Systems Project could obtain some of your declassified computer software systems. We are particularly interested in those known as 'decision aids' or 'policy analysis systems'. They are useful for simulating the consequences of decisions. Your systems could very likely be adapted to the study of public health policy and clinical decision making.

Do feel free to call me at

Very truly yours,

Chester H. King
